

Royal theater of Namur

Renovation of a theatre of Italian style :

- restauration of the main floor, the foyer and the dome,
- erection of a new scene,
- creation of a repetition room and a polyvalent room under the main floor.

An important *rempiètement* under water was needed to create the two new volumes under the existing building.

The dome is hanged up to the new roof by mean of a anti-vibration suspension to improve the acoustic behaviour.

Owner : city of Namur.

Architect : atelier d'architecture Thierry Lanotte, P. Lamby.

Situation : place du Théâtre at Namur (BE).

Execution of the works : 1995 - 1998.

Cost of the works : 6 491 000 euros excl. vat, exclusive the arrangement of the scene.

Mission : stability.
