**Complete mission including health & safety coordination
Preliminary and final design, and tender documentation to date**

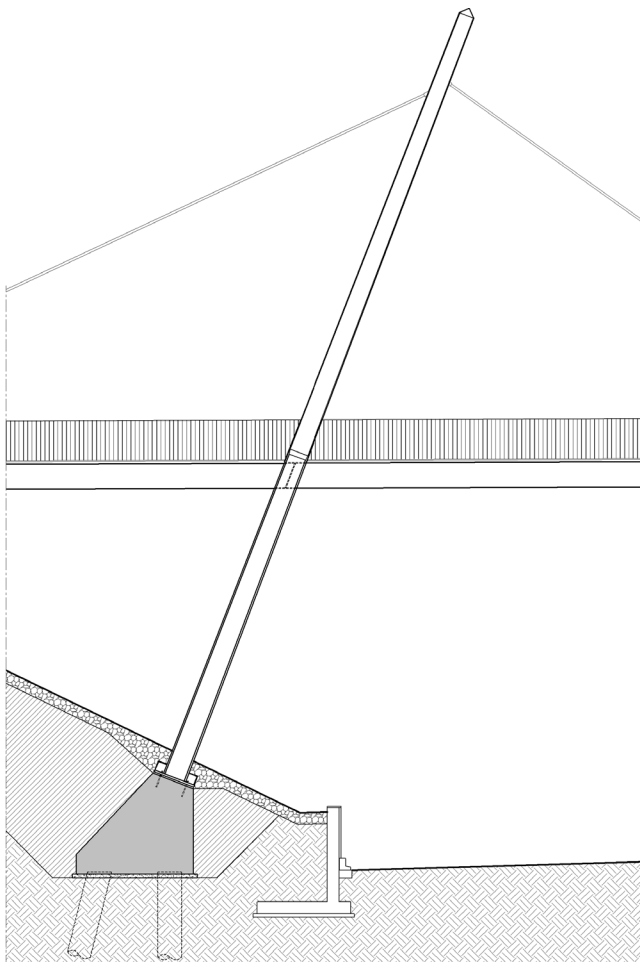

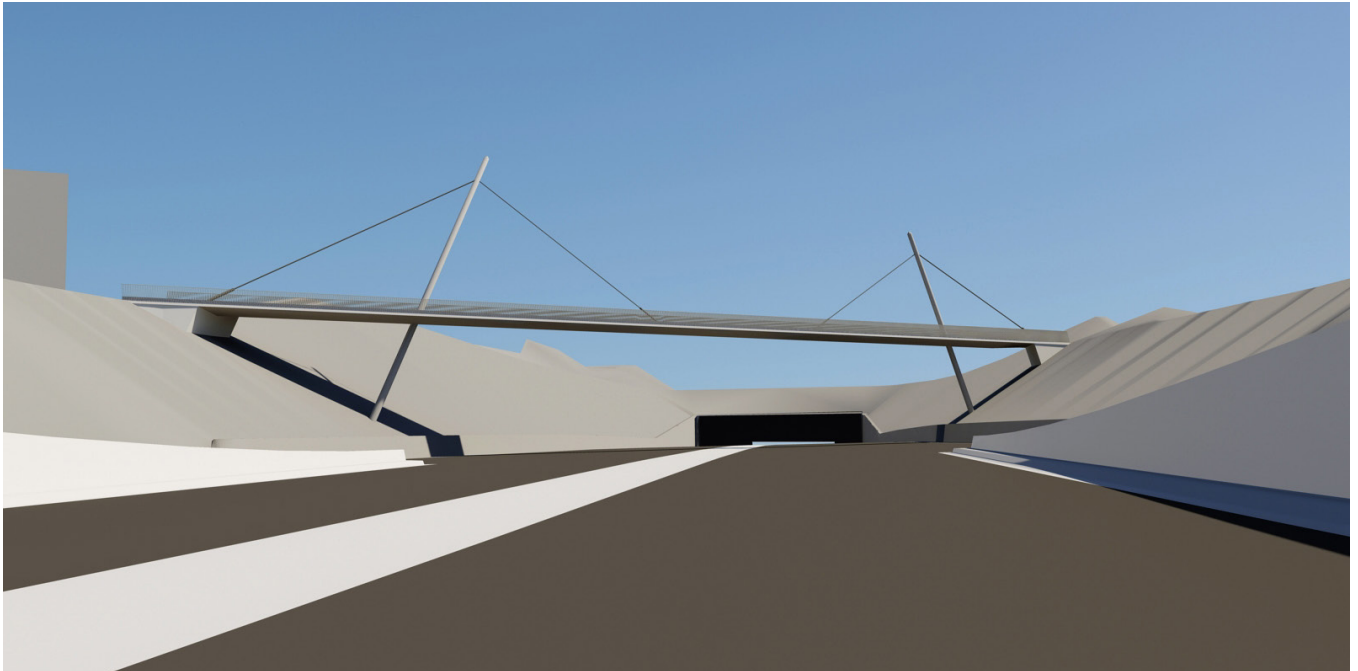

Owner
Service public de Wallonie,
direction des routes de Liège
(SPW - DGO1)

Cost of the works
€ 1,22 M. excl. vat

Studies
2009

Execution
Stand by

OA

Cable-stayed steel bridge 90 m long, with a 50 m central span between two inclined pylons.

The deck comprises a small oval-section slab 4,90 m wide with a maximum centre-point height 660 mm.

Each pylon supports two stays comprising a steel rod of diameter 52 mm.

The bridge provides a route for pedestrians and cyclists (RAVel) over a planned motorway.
