

Bureau Greisch at Liège

Liege science park, allée des Noisetiers 25 - Liège (BE)

Complete mission of architecture, stability and building services

Owner
Bureau d'études Greisch sa

Cost of the works
€1.6 M excl. vat, including
furniture and outside arrange-
ments

Execution
1993 - 1994

The building is located in a forest with a light slope, in the middle of the scientific park of Sart Tilman that gathers the companies working in tight collaboration with the university of Liège.

The building is composed of two levels and is divided by opaque or transparent walls which can be dismantled. More than 100 persons work over a 2 000 m² floor surface.

The materials used are concrete, apparent concrete blocks, merbau cérusé, glass, stone paving en grès cérame, stainless steel and prépatiné zinc.
