Aldar Properties

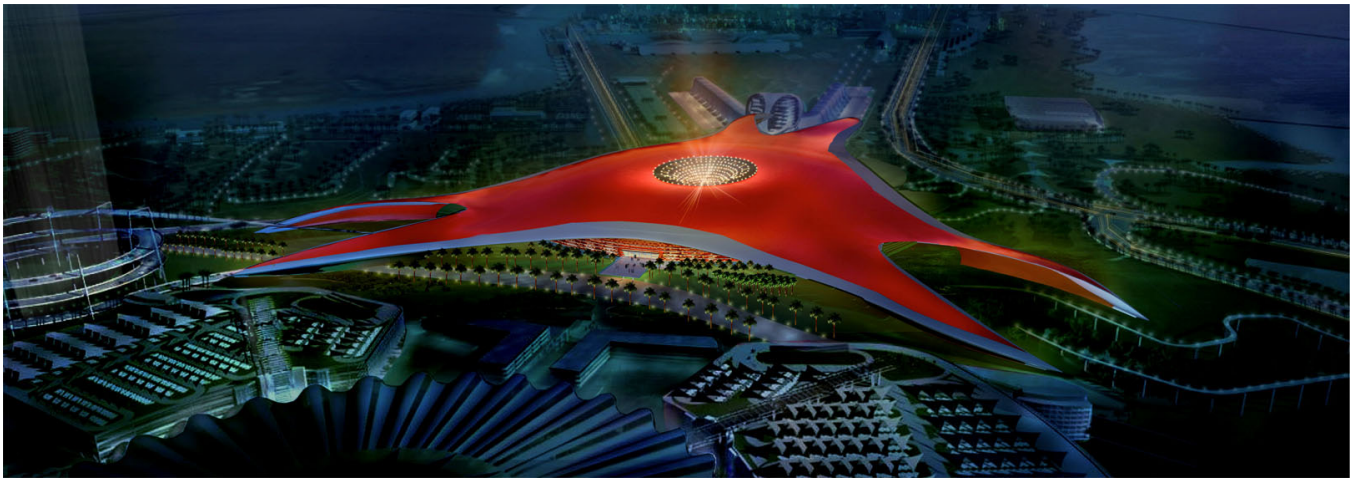
Architects
Mike Lewis, Benoy

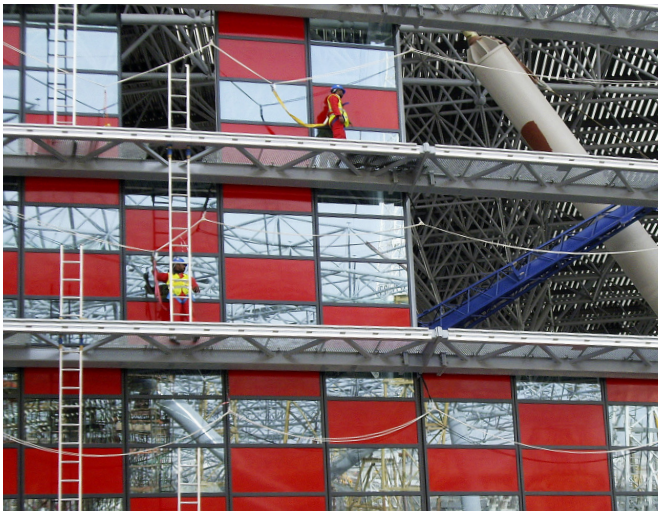
Cost of the works
€ 200 M. excl. vat

Studies
2008 - 2009

Execution
2008 - 2009

CM





Construction of a leisure park of 200 000 m² based on the brand Ferrari.

The site built on a natural desolated island of 1700 hectares home mainly the new Formula 1 circuit, which is located next to the Ferrari world.

The facades of an area of 60,000 m² are made of glass placed on aluminum frames supported by a structure of steel trusses.

The metal roof cover of an area of 200,000 m² is composed of thousands of steel sheets all different based on a spatial lattice-type structure through tailor-made purlins.
